Core and Enhanced Programs: During our 18 class **Core Program** students will learn a set of key programming concepts for their course. In the **Enhanced Program** (27 classes) our students will learn even more and take the core concepts further. Our Enhanced students will also be able to design and add their own personal customizations to their video game project. During the Enhanced portion of the course students will really stretch their wings and develop valuable independent programming skills. Families signing up for the Enhanced program are also eligible for lower hourly rates which are detailed below.

2018-2019 Policies:

Please go over these rules with your child

In order to maintain excellent relationships with our host institutions and to achieve the best possible classes, for everyone, it is necessary for our parents and students to follow these rules and policies.

1. Parents of our students are responsible to ensure their child is equipped with a **USB storage device**. For safety sake, your son or daughter should bring home a back up of their game after each weekly class. RP4K will not be shipping out your child's game after the camp. RP4K will be emailing out your child's report card. Students can obtain corresponding programming software from www.realprogramming.com
2. **Holiday Dates** Parents are responsible for checking holiday dates on our calendar at www.realprogramming.com
3. Parents must provide a minimum 24 hour notice if a class must be missed. We will schedule a Make-Up Class for the student if required. **We cannot provide refund for missed classes.**
4. Our **Catch-Up Class Policy**: A catch-up class is 30 minutes and we aim for a 1-on-1 session. We allow for **two** catch up classes in the Core program, and **three** catch up classes in the Enhanced program – for no extra fee. If you schedule catch up classes beyond this allotment there are additional fees, based on the hourly rate for the course. Parents must provide a minimum 24 hour notice if a class must be missed.
5. Please make sure that you are on time when bringing or picking up your child. If you are late you are making other kids wait to begin a class that they consider to be valuable enough to be on time for. **Please notify us in advance if your child can't make it to class.**
6. **We do not provide supervision for students before & after class times.** Parents are responsible for their children outside the class times. This means that parents & guardians are responsible to drop off their children not more than 15 min prior to start time and are responsible to pick up their children not more than 15 min after end time. By signing below, the undersigned hereby agrees that he or she shall be responsible for escorting his/her child to and from their class inside the premises where **RP4K** classes are held.
 - When dropping off their children parents are responsible to escort their children until they are inside the RP4K lab. When picking up their children parents are responsible to enter the facility and escort their children outside the facility. Please do not allow your child to remain at our Program for more than 15 minutes before, and 15 minutes after their class begins/ends. We can not monitor students not in class for extended periods of time and take no responsibility for the actions outside of our stated class times.
7. Please park in designated parking only. Should you need instructions on where to park, please speak with the supervisor at your location. Use the designated entrance when bringing or picking up your child
8. Parents can quietly sit in on the classes for observation purposes but parents must remain in the classroom area of the building.
9. Parents cannot interfere with the teaching if they choose to observe the class. Only students are allowed to use the school computers; parents are not allowed to use the computers. Please use the designated areas while waiting for your child. Should you need instructions on where these areas are, please speak with us.
10. No consumption of food or drinks is allowed in the computer labs.
11. Our students must be on their best behavior almost all the time, however should your child cause unnecessary disruptions during a class, we will call home to notify the parent. No foul language, intimidation of other students, interference with other students or abuse of the computer labs will be tolerated. Real Programming 4 Kids reserves the right to remove a student from a course for unacceptable behavior without refund.
12. We cannot guarantee completion of the course project over the length of our Core program. The pace of the class is dependent on the students.
13. Access to the Internet is strictly monitored. Use of sites showcasing illegal or explicit material is not allowed.
14. There is a \$25. fee for NSF cheques. Late payment charges of 2% monthly will be applied on overdue balances.
15. Refund Policies:
 - 15.1. You must notify Real Programming 4 Kids if you are withdrawing your child from classes.
 - 15.2. **Full amount** is refundable until 45 days before the class start date. A \$35 administrative fee applies.
 - 15.3. **Balance only** is refundable until 14 days before the class start date
 - 15.4. **RP4K Quality Assurance Guarantee**: If after trying out the first two days of an RP4K class, you wish to withdraw your child, a full refund will be provided if he or she is withdrawn before the third day of the class.
 - 15.5 If you withdraw before the end of the season your refund will be calculated as the number of remaining weeks minus a withdrawal fee equal to the cost of 6 classes. The student may still attend these 6 classes.
